About Us

Academic Group is proud to provide quality Educational Resources for students and teachers that are designed specifically for the current Western Australian Curriculum. They are written by local W.A. teachers and are relevant, up-to-date and designed to prepare students for their ATAR examinations.

Academic Group has worked with schools and families for 30 years and knows the local education scene well. We are a WA family owned and operated company and are one of the longest established and most experienced education providers in Western Australia.

Our team of highly qualified, experienced writers have produced a wide range of study guides and revision books with comprehensive revision material. They provide a variety of relevant exam level questions and worked solutions to help students improve their school achievement.

Why choose Academic Group Publications?

Our Publications

Year 11 and 12 Study Guides

Make study more effective.

Academic Associates Year 11 and 12 Study Guides support the Western Australian ATAR Curriculum and combine the informative benefits of a textbook with the practical applications of a workbook. These comprehensive study guides enable students to work progressively through the different types of questions, building their confidence and preparing them for exams.

Year 11 and 12 Revision Series

Study Smarter, Not Harder.

The Academic Task Force Revision Series provides study guidance for Year 11 and 12 students in their ATAR courses with clear, easy to follow examples, questions and answers. The Revision Series are written by well-known West Australian teachers to specifically meet West Australian educational needs and help prepare students for ATAR examinations.

Creelman Exam Questions

Help in Preparing for ATAR Exams

By placing these books on your school booklist your students will have access to actual previous WACE exam questions arranged in topics and be provided with model answers written by expert ATAR teachers and markers, along with mark allocations. The Creelman Exam Question series provides an ideal preparation for tests and exams, showing both the type of questions that can be expected and the standard of answers required for the course. Revision for ATAR topic tests becomes easier - you can refer students to the relevant chapter for class work or homework.

The 2017 Creelman Exam Questions Series is available now. The 2018 edition will be available in March 2018.

Year 11 and 12 Mathematics Textbooks

By Dr O.T Lee

Dr O.T Lee is an exceptional, insightful teacher with wide-ranging experience as a WACE marker. His students achieve outstanding results in their exams. Dr Lee's Mathematics Textbooks have been written specifically for the WA curriculum and questions are set at ATAR examination level. By using these textbooks you can be sure your students are well prepared for their exams.

Physics - Year 10 & 11

Introductory Physics Study Guide

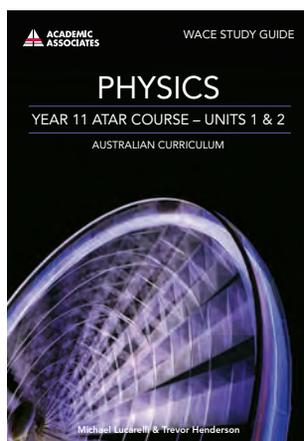

**Chris Kolomyjec and
Grant Keenan**

Published by: Academic Associates

Introductory Physics is a Study Guide for year 10 students (especially those wishing to study ATAR Physics in year 11 and 12). It deals with the Australian Curriculum theme of energy transformations. There is also an introductory section covering essential mathematics knowledge to assist students. There are worked examples, quantitative and qualitative questions and tests, all with worked answers. Introductory Physics is often put on Year 10 and 11 booklists to ensure students have the necessary foundation and calculation skills to grasp Units 1 and 2 ATAR Physics.

Mathematics Methods - Year 11

Introductory Mathematics Methods Study Guide

O.T Lee

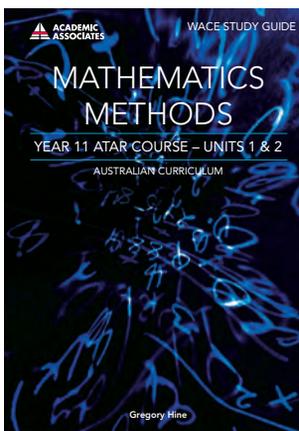

Published by: Academic Associates

This book provides a checklist of core skills and concepts required for the study of Mathematics Methods in years 11 and 12. The core skills and concepts are in line with the Level 10 Advanced of the Australian Mathematics Curriculum. It is aimed at students in year 10 preparing for the year 11 & 12 ATAR Mathematics Methods courses. It may also be helpful for students already in year 11 engaged in the Mathematics Methods course who may have missed out on the required essential skills and concepts. Each chapter has brief introductory notes, worked examples and practice tasks. Some chapters include Automaticity Tasks which are critical for success in the Mathematics Methods Course.

Testimonials

30 YEARS OF SUPPORT

**Dr Pam Bagworth, Principal of
ACADEMIC GROUP:**

**“I have over 30 years experience helping
students achieve excellent results.”**

Since we started Revision courses in 1986 enthusiastic feed back from students, parents and teachers tells us that our courses fill a real need and that students achieve great results.

Our courses and publications help all students whether they are high flyers or strugglers. Students report a dramatic boost to their confidence and school performance after using our study resources or attending Academic Task Force and Academic Associates courses.

Our wide range of programs and publications are designed to support teachers in the important task of helping students achieve success at school.

Our students say:

“I have gained great direction, better focus, more confidence.” (Tom, Willetton)

“I now have a greater understanding of the subject and a more positive attitude towards tackling questions not previously understood.” (Sasha, Claremont)

“A great boost to my exam performance.” (Ali, Ballajura)

Our Services

MAXIMISE PERFORMANCE. ACHIEVE SUCCESS

We know that many students invest significant time and effort in their studies, yet don't obtain the results that reflect their commitment and potential. The role of Academic Group is to build on the teaching that takes place in schools, and to provide students with many opportunities to improve.

Master Classes

Weekly teaching classes by expert ATAR teachers who aim to extend and teach students how to gain maximum marks.

ATAR Revision Program

Specially designed programs to help revise ATAR course content and teach students how to maximise their results. Held in the January, April, July and October school holidays

Weekend Tuition Classes

Small group tutoring classes available throughout the year to provide on-going help as students need it. For years 7 - 12.

Head Start Program

Held in January for Years 7-12 so students can fill in gaps in their learning and build understanding in their subjects to start the new year with confidence.

Skills Development Program

Held in April, July and October for years 7-10 to help students revise important concepts and skills.

Individual Tuition

Available in the home or boarding school. All ages, all areas.

Get the ATAR score you deserve.

ACHIEVE SUCCESS AT SCHOOL

Since 1986 ACADEMIC TASK FORCE has helped over 100,000 students boost their academic results.
