

Planting Year 2008

This is to certify that

Earth Ink

Is offsetting an estimated 20 tonnes of
carbon dioxide emissions
by the planting of 120 native trees

Carbon Neutral is committed to securing a better future for our children.

Our goal is to make it easy to offset emissions through native tree planting and facilitating access to information on greenhouse gas emissions reduction.

We are a not-for-profit company, founded by Men of the Trees WA and affiliated with Trees for Life SA. These not-for-profit community organisations have collectively grown over 30 million native trees in Australia during the past 27 years.
