 **Saeco**

Tales Touch

Within the Tales line this model offers the most features to please your taste. Whatever coffee you prefer every option is just a soft fingertip away. Thanks to its Touch Screen display each coffee is prepared easily and automatically, of course. Even the height adjustment of coffee cups is designed for your convenience. It works electric. So when it comes to manual control all you need to do is: fill in the beans and enjoy.

Tales Ring Plus

Like every Tales model this fully automatic coffee machine offers at the best coffee delights. The main difference from the Tales Touch: its click wheel interface. With this fine functionality it only takes a slight turn to make your very personal selection. The tool comes along with a 24 digits LCD-display for 2 text lines, always showing your current coffee choice: a pleasant anticipation right before enjoyment.

Tales Ring

Similar to its sister model Ring Plus this innovation is equipped with favorable features for all coffee lovers. Its ring is one of the key elements to take all your orders. It does have a LCD-display with 16 digits for 2 text lines. Changing the drip tray's height is a matter of course. It can easily be moved manually. Like all the Tales models, the machine is provided with the 100% Saeco Brewing System, to enjoy every coffee exactly to your taste.

Tales Giro

If you prefer a combination that matches convenience with coffee enjoyment, the Tales Giro is the best possible choice. Just like all Saeco fully automatic coffee machines you can be sure to always get the best in taste and design. Thanks to its Giro interface it is possible to choose the length of the coffee with just one turning of the knob. It comes without saying that the parallel preparation of two coffees is an absolute must-have. It's just never to enjoy together.

User Friendly Interface

While the Tales Touch comes with a black & white Touch Screen Display the Tales Ring Plus and Ring have a handy click wheel. The interface of the Tales Giro has a knob and indicator lights. All start-ups make every coffee a touching experience.

Touch Lift

Coffee cups come in different sizes. To always enjoy the best results the Touch Lift can be adapted to your needs, whether it is Espresso or Latte Macchiato, just change the height of the drip tray.

SIPS

This is best described as a chromed metal jewel. With just one turn you can prepare any kind of coffee exactly to your taste: mild or strong, smooth by lowering the knob.

Ceramic grinder

A high-tech innovation you will hardly find - thanks to its long culture. Coffee roasts to all its organoleptic properties to guarantee the best absorbable taste.

Milk Island

The Milk Island is a Saeco unique new development. In fact it is the key function for all milk froth, whether you prefer Espresso Macchiato, Cappuccino, Latte Macchiato or any other specialty based on milk. The preparation of creamy foam is just a matter of seconds.

Steam/water recycle

Thanks to this feature it is just a matter of seconds when you want to have some hot water or create a creamy milk foam.

Tales Milk Island

The Milk Island is a Saeco unique new development. In fact it is the key function for all milk froth. Whether you prefer Espresso Macchiato, Cappuccino, Latte Macchiato or any other specialty, the preparation of creamy foam is just a matter of seconds. Different to other systems this feature is not built in, but to be placed next to a Saeco machine. In addition to its beautiful design the functionality is invitingly easy.

All you need to do: fill in the desired amount of milk and turn the steam button on top of the Saeco Tales. The innovation in enjoyment comes with a lot of advantages:

- Individual dose of milk amount: Depending on the desired drink, you can fill in exactly the necessary amount of milk.
- Individual adjustment of foam consistency: whether you want a smoother or tighter foam. All it takes is an adjustment of the steam intensity by turning a button.
- Fast cleaning: The Milk Island can be cleaned conveniently under the water tap or inside the dishwasher.
- Storage in the fridge: In case there is extra milk not yet needed, the milk container can be stored in the fridge.

The Milk Island is available in glass with a capacity of 0.6 litres.

Talea Touch

Within the Talea line this model offers the most features to please your taste. Whatever coffee you prefer every of option is just a soft fingertip away: Thanks to its Touch Screen display each coffee is prepared easily and automatically, of course. Even the height adjustment of coffee cups is designed for your convenience. It works electric. So when it comes to manual control all you need to do is: fill in the beans and enjoy.

Talea Ring Plus

Like every Talea model this fully automatic coffee machine offers all the best coffee delights. The main difference from the Talea Touch: its click wheel interface. With this fine functionality it only takes a slight turn to make your very personal selection. This tool comes along with a 24 digits LCD-display for 2 text lines, always showing your current coffee choice: a pleasant anticipation right before enjoyment.

Talea Ring

Similar to its sister model Ring Plus this innovation is equipped with favorable features for all coffee lovers. Its ring is one of the key elements to take all your orders. It does have a LCD-display with 16 digits for 2 text line. Changing the drip tray's height is a matter of course. It can easily be moved manually. Like all the Talea models, this machine is provided with the SBS Saeco Brewing System, to enjoy every coffee exactly to your taste.

Talea Giro

If you prefer a combination that matches convenience with coffee enjoyment, the Talea Giro is the best possible choice. Just like all Saeco fully automatic coffee machines you can be sure to always get the best in taste and design. Thanks to its Giro interface it is possible to choose the length of the coffee with just one turning of the knob. It comes without saying that the parallel preparation of two coffees is an absolute must-have. It's just nicer to enjoy together.

enjoy.
