**PE'TYE**[®]

Essential for Fine Dining

SAVE 20%**PIN FIRED**

All Pe'tye's flatware items are fired during the glazing process on small pins. This technique ensures all pieces have a smooth, fully glazed foot. The major benefit, is that when plates stacked, scratches and abrasions are greatly reduced.

EXCELLENT PERFORMANCE

Pe'tye is incredibly durable, strong and lightweight. The high percentage of Alumina added to the raw materials ensures resistance to chipping and breakage. This exceptional strength results in a longer life span, therefore lowering replacement rates.

TWO YEAR CHIP WARRANTY

The Pe'tye range comes with a two year Chip Resistance Warranty. We stand by our products and you can be assured that each piece has been designed to withstand the dynamics of a commercial kitchen.
