Shun knives strike a fine balance between cutting-edge technology and traditional Japanese design. Every Shun knife is crafted from the most advanced materials available using techniques perfected by and passed on through countless generations of master sword smiths.

The distinctive wavy pattern on a Shun knife is the result of sandwiching an extremely hard 'super steel' core between 32 micro-thin layers of polished stainless steel. This unique construction creates a brilliant Damascus-finish blade with a razor-fine edge that's easy to sharpen and maintain. All Shun knives are guaranteed for life!
