

**TORO****LAWN DIAL SERIES**

The Toro Lawn Dial is an entry-level outdoor controller suited to domestic and light commercial applications. Easy to use and reliable, the Lawn Dial, available with 6 or 11 stations, features an easy to use dial, large LCD display and interactive control buttons to make navigating through the program sequence quick and easy. The non-volatile memory retains all programmed information for up to 5 years even in the event of loss of mains power. Suitable for use with pumps, the Lawn Dial controller provides versatile scheduling options and is compatible with Toro Rain Sensors to maximise water efficiency. Designed for ease of use, the Lawn Dial is suited to spray and drip systems.

## FEATURES & BENEFITS

### Available in 6 or 11 Station

Each station can be assigned to 1 or up to 6 independent programs. Each program has up to 6 start times.

### Versatile Programming

Programable to 7 day calendar, 1 to 15 day intervals or odd/even days of the month with run times from 1 minute to 12 hours and 59 minutes in 1 minute increments.

### Water Budgeting

Water Budgeting (%) allows users to quickly increase or decrease all programmed run times from 10% to 200% in 10% increments for all stations and programs simultaneously.

### Rain Sensor Compatible

Prevents unnecessary watering when a pre-determined moisture level is exceeded, when connected to a compatible sensor.

## SPECIFICATIONS

### Dimensions

- 240 mm (W) x 80 mm (D) x 185 mm (H)

### Electrical Specifications

- Electrical Input power: 230 VAC / 240 VAC 50 Hz
- Station Output power: 24 VAC
  - Maximum station load: 0.3 A
  - Total master valve load: 0.5 A
  - Total maximum load 0.8 A
- Operating Temperature: 0 - 60°C
- Surge Protection Standard: 47 KV common mode
- Maximum Cable size: 0.5 mm<sup>2</sup> – 2.5 mm<sup>2</sup>

### Warranty

- 1 Year

## OPERATION SPECIFICATIONS

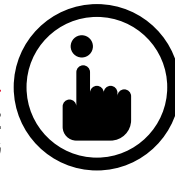

- 6 individual sequentially operated programs
- Up to 6 start times per program
- Station run times from 1 minute to 12 hours and 59 minutes
- 3 Scheduling options:
  - 7 day calendar
  - 1 to 15 day intervals
  - Odd/even days
- Pump start delay from 1 to 99 seconds
- Master valve on/off by program
- Activates 3 valves simultaneously
- Large LCD display for easy navigation
- Water budgeting enables change of all programmed run times simultaneously
- Manual mode allows for manual start of individual programs and stations
- Retains program data during power outages
- 9V Battery allows for memory backup (not included)
- Cabinet lockable with padlock (padlock not included)
- Compatible with TRS Rain Sensor
- IP 44 Rating
