

PE PIPES LDPE

Low density polyethylene pipes and tubes for use in agricultural irrigation systems, water delivery systems, assembly sets, and automation applications.

Contains Recycled Plastic

High Durability & ISO 8779 Certified

Backed by Netafim 5 Year Warranty

Benefits & Features

→ Multiple diameters & coil lengths

- ✓ All pipes are manufactured with UV and oxidation protection, making them durable to solar radiation without significant damage for many years
- ✓ Micro-organisms or fungi do not attack PE pipes, either internally or externally
- ✓ PE pipes are resistant to saline water, acid or alkaline solutions (excluding highly concentrated solutions) and to most substances employed in agricultural applications
- ✓ Available in standard coil lengths, large diameter reels or pipe rods, to meet specific requirements

→ Available in black, bright white or purple

- ✓ Made with quality low or medium density polyethylene resin, especially formulated to resist cracking and kinking, and to ensure long-term reliability
- ✓ Precision manufacturing to ensure the uniformity of internal diameter and wall thickness
- ✓ Contains recycled material that contributes to achieving a circular economy and helps growers reach their ESG targets.
- ✓ 5 Year Warranty, provides best in-class reassurance on all blank polyethylene tubing 1.0mm and upwards.

Specifications & Recommendations

- Standard irrigation pipes, produced according to Israeli Standard SI 8779 that fits the International Standard ISO 8779
- Tubes 13/3, 19/3, 25/3, 32/3, 20/4 and 25/4, produced according to Netafim™ quality standards
- Each pipe can be identified by its outer diameter and by its class (3 or 4 bar). On each 1 meter of the pipe there is a mark that represents the following:

Product Range

- ✓ Bright white and purple co-extruded options
- ✓ Pre-punched Black and White co-extruded options available
- ✓ ISO/EURO 4 bar specification

- ISO 8779 vs. AS 2698
Nominal diameter of ISO 8779 refers to outer diameter (OD) whilst AS 2698 nominal diameter refers to internal diameter (ID).
- Please ensure that you are utilizing the relevant standards when ordering from our LDPE range.

Low Density Polyethylene Pipe (LDPE)

BLACK LDPE

MODEL	PIPE ID (MM)	PIPE OD (MM)	WALL THICKNESS* (MM)	PN (CLASS)	MAX. WORKING PRESSURE (BAR)	MATERIAL CLASS	TIE COIL LENGTH
