

51 Series DC Diaphragm Ag Pump

An economical workhorse, the 51 series are engineered for flexibility. The 51-Series is our Heavy-Duty water pump. It provides high volume water flow with reduced pump cycling, thanks to the large five-chamber diaphragm. With on-demand switching, 11.5 LPM, and 60 PSI, the 51 series will meet your special requirements with positive predictable performance. The 51-Series pumps are self-priming, and can run dry without damage, performance reliable and low current.

Type	5 Chamber positive displacement diaphragm pump, self priming, capable of being run dry
Valve / Diaphragm	Viton / Santoprene
Control Type	Pressure switch
Max Recommended Temperature	60° C (140° F)
Priming Capabilities	1.8m (6 feet) suction lift
Re-start Pressure	Shut-off Pressure 60 PSI : 48 PSI ±5 PSI (±0.3 bar)
Inlet/Outlet Ports	1/2' Male NPT
Wire Connections	2-Pin Leads
Weight	2.8 kg

Model	Open Flow	Shut-off Pressure		Voltage / Max Amps	List Price
