

# TANK FITTING RANGE

## TANK FITTINGS

- Guyco Tank Fittings cover most Tank or Reservoir requirements
- From Flange to Threaded Adaptors, our range of fittings are comprehensive, available in both Nylon and Brass
- Guyco stock the unique Australian-Made Barbed Tank Fitting that can be fitted with external access only
- Guyco also has an extensive range of Water Cocks and Valves to compliment these fittings
- Guyco has a full range of Float Valves that are both Watermark and Non-Watermark Approved
- Guyco Tank Fittings require no Thread Tape, or Silicone to breach a Tank Wall; a Rubber Seal is part of the fitting
- Guyco sell the popular IBC50 Connector to adapt a coarse thread to a workable BSPT FI Thread
- Guyco's Fittings will accomodate Tank Outlets up to 100mm, with Corrugated Flanges available up to 50mm

## TANK INDICATORS

- The Apex VisiBall is a mechanical solution to keeping track of valuable water resources, able to be visible from a considerable distance it gives a real time indication of the mean water level in a tank
- The VisiBall is made from quality materials that are suitable for harsh Australian Conditions
- We also stock a simple Retrofit Gauge that gives an accurate indication in 5cm increments of Tank Contents. The face of this Gauge is reversible with a different scale for deeper tanks
