

SPOT THE TOT

Attach this sticker to your driver's side window so you're reminded of the potential dangers to children every time you get into your car. Make sure it doesn't block your view while driving.

Keep the sticker below in a safe place.

ONE CHILD IS RUN OVER IN THE DRIVEWAY OF THEIR HOME EVERY WEEK IN AUSTRALIA.

You can help protect the children close to you, by following a few easy safety tips:

- ✓ Walk completely around your parked car to check for children, pets or toys before you start or move your vehicle.
- ✓ Make sure children are accompanied by an adult when they get in and out of your car and firmly hold their hands anywhere near vehicles.
- ✓ Select safe play areas for children away from driveways and know where children are playing.
- ✓ If you need to move a vehicle and are the only adult at home, place your child securely in the vehicle while you move it.
