Hello all 630+ subscribers to Breastfeeding News

As with all things, an end comes one day.

I have been producing Breastfeeding News since 2002; it has been a delight to do but now I have decided to stop.

However, if you wish to set up your own system, please use the following paper which outlines the sources and processes I have been using to garner this information.

This is freely available at

<http://www.internationalbreastfeedingjournal.com/content/1/1/15#B4> (Please note that the last paragraph no longer applies)

Please feel free to share this with others.

Thank you for your support during these past years.

Have a wonderful festive season

Take care

Farewell

Ellen

PLEASE SIGN THIS PETITION – WE NEED YOUR SUPPORT NO MATTER WHERE YOU LIVE

The aim of the petition is to dissuade the Federal Government from scrapping the Advisory Panel on the Marketing of Infant Formula (APMAIF).

This will mean the formula manufacturers will have no national body to oversee their marketing behaviours which could well be a disaster to breastfeeding in Australia.

Please sign and share as widely as you can - via email, facebook and twitter.
