The National Breastfeeding Awareness Week Conference 2009, Monday 11 May

Church House Conference Centre, Westminster, London.

The focus of this year's conference will be the launch of the new **UK-WHO growth charts**, which are being introduced in England for the first time. They provide more accurate guidance on child growth and help to establish exclusive breastfeeding as the norm. These new growth charts have been developed for the Department of Health by the Royal College of Paediatrics and Child Health. For details of the conference programme including workshops and to register your attendance at this year's NBAW conference, please visit the registration website at www.nbaw-reg.org.uk.
