

ASX Release

10 March 2010

UNDERGROUND MINING OPERATIONS RESTARTED AT SMOKEY HILLS

Further to our release dated 4 March 2010, Platinum Australia Limited (ASX:PLA) (AIM:PLAA) is pleased to advise that underground mining operations recommenced at the Smokey Hills Mine on Monday 8th March.

This follows the mining contractor, Redpath Mining (South Africa) (Pty) Limited, completing the appeal process for approximately 70% of the employees, who have been re-employed and have recommenced work. These employees had been dismissed for participating in unprotected industrial action at the mine. The appeal process for the balance of the workforce should be completed by the end of the week.

The crushing plant is now operating at full capacity and the Company anticipates restarting the milling and flotation plant on Wednesday 10th March.
