Volume 2 Issue 2

February 2001

SELECON

Ashton Admor Pty Ltd are pleased to introduce our Selecon range of quality lighting. The **Acclaim Fresnel 6°- 60°** (left) which produces a soft-edged cone of light.

The Acclaim Zoomspot (right) excellent for front lighting or auditorium positions.

The Condensor Profile (right) provides projector-like beam quality ideal for pattern (gobo) projection. Both zoomspot and condensor profiles come in two angle types - 18° to 34° and Wide angle 24° to 44°.

For an energy saving tungsten halogen lamp, Selecon has the Pacific (right) which produces intense white light - a great new tool for the lighting designer.

Lighting Controls

Theatrelight has been running for 20 years and in that time has produced top quality products that make them one of the leaders in their field.

One such product is the **Cuemaster**. Both the Cuemaster and **Cuemaster plus** are designed to cover a wide range of lighting situations.

Compact and portable **dimmer racks** come in ten or twelve 2.5 W Dimmers. Lightweight & easy to handle. The Ten-pack or Twelve-pack can be used singly or in multiples. **Satellite 6** DMX dimmer pack, the ideal solution for touring, theatre and school exhibitions. The **Comet 6** is a simple to use DMX dimmer/chaser with sound to light operation. The **Scenemaster 3** is easy to use and very suited to the lighting of both small and large venues.

We sell a range of DAS sound products namely the Factor and Dynamic series. For Musical ambiance in restaurants, bars, offices, and commercial centres select the **Factor series** and for Sound Reinforcement for clubs, discos, auditoriums and open air, the **Dynamic series** is ideal.

For the special price of **\$000.00**, you can now purchase our DAS package which includes ??

Specialty Products

Sets and Scenes

Flicker candles, very realistic non-flame candles using a 9v battery, great for school productions or Christmas shows.

Priced from \$000.00.

We also sell a variety products from

Visual Coatings. Paint tubs range from 1 litre up to 10 litres. Both standard, & fluorescent colours are available. Special colours can also be mixed on request. A variety of other accessories such as set brushes, graining tools, rollers, and trays.

Did you know can produce amazing effects using **Black Gun UV** and a can of **Invisible blue** paint? If you want to know more we can tell you how it can work for you.

Dance Floors

Our **Rosco** floor is highly portable which is great for situations where a permanent floor is not available.

Lightweight and non-skid, as well as flexible. It is easy to roll and unroll. The floor is reversible with black on one side and your choice of white or grey on the other. Thickness is 50 mils x 1.6m wide. Sold by the bolt 40m long, or metre. Install using Rosco Vinyl or Double-Sided tape only.

Mirrors

Rosco Mirrors come in a variety of reflective surfaces in a metalised plastic format. **Flexi-mirror** is silver and paper-backed and Rosco's **Shrink Mirror** is a lightweight substitute for the heavy glass mirror. Metalised plastic laminate is mounted in a

frame and heat shrunk for greater optical performance. It's design also makes transport very easy.

including GST.

Accessories

We have a selection of quality **Microphone stands** available for purchase. Stands range from desk-top type to free standing. Bases come in tripod or solid round and include a variety of Microphone holders. Priced from **\$ 55.00**.

Ashton Admor's School kit uses Mehron Inc. make up and equipment. It is ideal for use by drama students who wish to learn the skill and artistry of applying professional stage make-up.

The kit includes **112** individual items and comes in a carrying case. The kit also allows for expansion with our additional Mehron make-up selection.

Items in the standard kit include -

- Make-up bases & palettes
- Setting & specialty

powders

- Blood effects
- Flesh and wound effects
- Brushes/cleaners &

applications

- Latex and adhesives
- Eye Makeup
- Ready-made wounds
- Instruction sheets
- Blushers
- Lip make-up
- Clown make-up
- Hair Products

Special School price **\$731.50** inc GST.

(Regular price \$860.00 inc GST)

Online Makeup Store

We have our online make up store up and running successfully. This makes viewing our Mehron products and price range a lot more convenient for you. You have the option of charging your purchase to your account with us or pay it by a secure coded

payment line by credit card or if you prefer, send us a cheque (this option may cause a slight delay in delivery). Our customers who quote an order number will of course have to forward their official order, but only with a summary and total cost of the order shown.

The Casualty Simulation Kit

includes our Mehron make-up and accessories. This kit is intended for use in training emergency personnel to be both technically and emotionally prepared in aiding the wounded.

The kit includes **78** individual items and comes in a carrying case. The kit allows for expansion with additional Mehron make-up and has space for personal items such as bandages and slings to be stored in the kit.

Items supplied with the standard kit include -

- Make-up bases & palettes
- Brushes/cleaners & applications

How To Construct a Crepe Beard

If a beard is going to be worn for any length of time, it is a good idea to construct it on top of a latex foundation. Latex foundations can be constructed either on the performers face or on a plaster life mask.

Materials

- Liquid latex (clear or skin-tone)
- Crepe hair
- Scissors (clean and sharp)
- Comb
- Hair dryer

1- Apply 4-5 thin coats of latex foundation on the area of the face you require the crepe hair, allow to dry between coats. (see Figure 1)

2 - Straighten crepe hair by loosening braid and wetting the hair. Stretch the unbraided strand completely straight (or to the desired waviness) and allow to dry. Hair can be force-dried with a blow dryer or an iron set to 'wool'. (It's a good idea to cover it with a clean, cotton handkerchief before ironing).

3 - Cut the crepe hair a bit longer than desired length. Make sure that you have

enough hair to go from ear to ear for about three rows and that the bottom row is the longest, each row being a little shorter than the first to give a staggered effect.

4 - Dab a small area of the face with a thin coat of latex starting near the ear, press the crepe hair onto it and work your way along fairly close to the bottom of the jaw-line. (see Figure 2)

Place another line of hair just above so it overlaps the first to give the beard thickness and width. (See Figure 3)

Fig 1

Fig 2

Fig 3

5 - The moustache needs about one or two layers of crepe hair one row applied on top of the other (depending on how thick you want it). Start from the edges of the upper lip in towards the nose following the natural, downward growth. (see Figure 4 & Figure 5)

Fig 4

Fig 5 Fig 6

6 -Once latex is dry, trim off the excess hair to desired length. (See Figure 6)

7 - You can use your fingers to gently ease the hair into shape and give the completed beard a gentle combing. Set it with hairspray if so desired.

8 - To remove the crepe beard, simply pick off a corner of the latex foundation and gently pull beard from face. Cleanse face with warm water or make-up remover to remove any traces of latex.

This is only a basic guideline. With a little imagination teamed with our Mehron Inc. colour range of crepe hair and latex liquid, available, you can create any style.

Serving the Entertainment Industry

Find us on the
[Webwww.ashtonadmor.com.au](http://www.ashtonadmor.com.au).

For over 20 years Ashton Admor have been associated with primary and senior high schools in both hiring and sales of a variety of light and staging equipment. From small indoor events to large outdoor concerts, our professional staff, if requested, can even involve students in the technical areas to give them valuable experience.

Technical Projects Inc. carry a range of talkback equipment under the name **Production Intercom**.

Equipment to enable stage manager and technical staff to communicate effectively. This equipment can be utilized for a wide range of applications, from a small school production to a large performing arts centre.

We have available anything from main stations/ power supplies, fixed headset stations, portable headset stations (belt packs), loudspeaker stations and single or dual muff headsets. Please contact us so we can provide professional advice to get you the right combination for your needs.

Cordless Headphones

We are proud to introduce our range of cordless headphones by AKG Acoustics. They deliver quality sound, sturdy construction as well as good looks.

With the **Hearo** series for RF wireless surround sound - 777 Surround, 888 Titan & 999 Audiosphere, simply connect the

headset to your TV set, VCR, or DVD player. It even works with your Hi-Fi or PC with no additional equipment needed. Other Wireless AKG headphones are -

K105 UHF Wireless hi-fi, **K311 IR** Infrared hi-fi,

K305 UHF and **K405UHF**.

With auto-tuning -

The **K305 AFC** and **K405 AFC**.

High-end frequency - the K401.

Reference headphone - the K501.

Our **AKG PR81 UHF wireless microphone system** is primarily designed for use in video and TV camera-mount applications. It can be used also as a distribution system for multiple language translations in houses of

worship, conferences and guided tours.

HIRE DEPARTMENT

Ashton Admor have a full sound and lighting hire department. Anything from a spruiker box to a full concert sound system or a single light to a full lighting display.

Chris Stace our hire manager will do all he can to ensure you receive the professional assistance you expect.

We can supply simple equipment that you can easily operate yourself or for more complex jobs, we are able to provide a trained technician to organize and operate the equipment for your function.

Add this to your staging and set requirements and you have a total package provided with a high standard of service.

If you prefer, we can even deliver, install and later dismantle and remove the equipment. Or if you are handy but on a tight budget you can do it all yourself.

X-Hire Items for sale

From time to time we have a spring-clean and are usually willing sell any x-hire equipment that we no longer need. Our equipment may be in good working order or if not, can be ideal for spare parts. (please note our second-hand items for sale are subject to availability.)

Need Some Assistance?

For sales or repair inquiries please ask for **John Culverhouse**.

For hiring, contact **Chris Stace**

And for make-up, ask for **Rudi** or

STAGING

Ashton Admor provide a range of high quality portable staging for hire or purchase, all designed to create a stunning setting for your show or promotion. The staging can be constructed to many different sizes. The tops can be black carpet or painted wood finish.

For fashion parades we often cover the stage in white calico as an eye-catching feature.

The stage can be dressed in black, red velour, blue, green, white or any colour of your choice. The staging comes in heights of 300mm, 600mm or 900mm. We also have experienced staff to install your staging to the highest of standards.

Pyrotechnics Galore!

We sell a variety of pyrotechnics in the **Blakes** range - Anything from Micro puffs, Flame projectors, Gerbs Jets and Maroons.

We also hire out exploders and bases at reasonable prices.

Please note that you cannot purchase pyrotechnics without a valid license so Ashton Admor offer Theatrical Pyrotechnic Operators Permit (**T.P.O.P**) courses to enable operators to obtain their permit from the Dept. of Minerals and Energy.

The course is held at 34 Hargreaves St Belmont and include hands-on operation of a number of pyrotechnics.

Just ring and book a time - cost of course is **\$350.00** per person.
