

CAT / ANIMAL

## CAT / ANIMAL MAKEUP APPLICATION

*Optional Item:*  
Mehron's Tri-Color Alien Makeup Palette containing black, gold and silver makeup.

- A. Sketch eyelines, nose and upper lip shapes with black makeup (Figure 2). The other hair designs on face can be painted with a color to match wig or hair color.
- B. Highlight around dark shapes with a light color (Figure 3). Carefully study the highlight shapes in eye and mouth area. They are important in creating animal shapes.
- C. Accent remaining areas with a color of your choice (we used silver).
- D. Accent hair with spray colors. We styled the model's natural hair into "ear" shapes and streaked it with silver and white spray (Figure 4).
