Better Beer Hint Beer Gets Better With Ageing

Homebrew improves greatly with bottle ageing. It will not go off in the bottle at all...beer that is 6 months in the bottle tastes much better than beer that is only 1 month old. Try it...you'll be amazed at the difference.

If you are drinking your beer as fast as you are making it you won't have a chance to do this so why not increase your production for a while and try this tip with a 2 Brew Fermenter. See your membership discount vouchers for a great deal on a 2 Brew Fermenter.

TASTY APPLE CIDER

Apple Cider is often a brew that is overlooked but you can get a beautiful tasting drink by following these simple instructions for Summer Cider.

Ingredients

- 1 can Black Rock Cider
- 1 pack of Brew Blend #15 - Brew Booster
- 6 fresh apples cut in half with the core removed

The choice of apples is up to you....different varieties produce different tasting ciders. Green apples will make a sharp cider. Sweet eating apples will make your cider smoother. Golden delicious will add glorious colour. A mix of all 3 types of apples will also make a beautiful drink.

Method

1. Mix the cider kit with 2 litres of very hot water. Then add 10 litres of cold water.
2. Hang a nylon straining bag over the mixture in the fermenter.
3. Coarsely grate the apples (including the skin) into the bag.
4. Tie the bag closed and drop it in the fermenter.
5. Top up to 18 litres with cold water, then add the yeast.
6. Final SG will be about 1004.

THE A,B,C TO BETTER LIQUEURS

Still Spirits is a market leader when it comes to creating authentic liqueurs and spirits. They have an extensive range of products with almost every conceivable flavour available. One of the things that we love about the Still Spirits range is the base products that are available to ensure that you get a premium drink that is close to the original. These products have been on the market for about a year and they are already a favourite for our seasoned customers.

There are 5 base pack products available

- Base A - \$3.50
- Base B - \$3.50
- Base C - \$3.50
- Schnapps Base - \$3.95
- Cream Liqueur Base - \$4.95

These Base Packs are used in place of liquid glucose and sugar. Still Spirits have also made it easy to know which base to use by using a colour coding system that matches the flavours to the base pack. The A, B and C Bases have a red coloured band, the Schnapps base has a blue band and the Cream Base has a purple band. They are easy to use...to make your spirits even better why not give them a try!

NEW WINE PRODUCTS

Winexpert, a world leader in wine kit manufacturing, have just launched their Selection Estate Series Crushendo. These are ultra premium wine kits which enable you to enjoy the experience of making the equivalent of a \$60 commercial bottle of wine for only \$7.70 per 750ml bottle.

There are 2 kits currently available **Corvina Classico Di Veneto** and **Santa Ynez Valley Syrah**. Each kit comes with a **Crushendo™** grape pack to add more flavour and body intensity than ever before.

California Santa Ynez Valley Syrah

This wine has an enhanced deep colour and full bodied flavour with aromas of blackberry, smoke, plum and "jammy" fruit. It also has a hint of black pepper spiciness lurking in its velvety tannins. Delicious flavours of blackberry, blueberry, herbs, black currant toast and vanilla.

Included in the kit is toasted powder oak. This means that you can get the effect similar to that created by winemakers who age their wine in oak barrels. The addition of oak imparts warm, toasty, vanilla flavours and fragrances which, when properly balanced, can contribute greatly to the overall character of the wine. Oak can even improve the early drinkability of certain wines.

In the range there is also the **Corvina Classico Di Veneto**.

Corvina Classico has lush, intriguing aromas of ripe red cherries and raspberries, delicate hints of almond, toast and spice and a richly tannic finish that has the fruit lingering on your palate for many minutes.

Both of these ultra-premium 18L kits are available now from selected Home Brew Specialty stores.
