

ANKA Check Valves are a spring loaded Non return valve which can be installed at any angle.

ANKA Check Valves can be installed in line and allow the fluid to flow in one direction only.

With the use of Non Corrosive components makes these valves ideal for many applications.

Features

- Spring Loaded; ideal for installation at any angle.
- Non Corrosive; using High quality materials
- Serviceable; valves can be taken apart for servicing

Applications

- Pumping
- Marine
- Irrigation
- Domestic
- Agricultural
- Industry

Material

Body : Glass Fibre Reinforced Nylon
Spring : 316 Stainless Steel
Plunger : Acetyl
Seat : Nitrile Rubber
O Ring : Nitrile Rubber
Threads: BSPT

Maximum Working Pressure : 16 bar (1600 kpa – 230 psi) @ 20°C

Check Valve	
Code	Size
ACV 15 M&F	15mm (1/2")
ACV 15	15mm (1/2")
ACV 20	20mm (3/4")
ACV 25	25mm (1")
ACV 32	32mm (1 1/4")
ACV 40	40mm (1 1/2")
ACV 50	50mm (2")
