

## Blue Petrol & Oil

### Applications:

A highly flexible suction and discharge hose designed for transfer of hydrocarbon based materials including diesel fuel, petrol, fuel oils, greases and lubricants. The thick wall and outstanding flexibility means a hose that is easier to use with long service life.

Colour: Blue with rigid PVC spiral reinforcement.

Working Temp: -5 to 60 degrees C

### Features:

Nitrile and PVC blend hose ensures an excellent chemical resistance and superior flexibility. Good weathering properties.
